PLATFORM

Each new medium **democratized knowledge** and brought more people into the great Jewish conversation. We are the generation shepherding the Torah from **print to digital**. We can vastly expand its reach and impact.

Sefaria will be the digital home of the Jewish canon and the platform for the future of Jewish commentary and publishing.

Sefaria will give Jewish texts the **beautiful interface** they deserve while building an open source, **digital infrastructure for the future of Jewish learning.**

“Throughout the centuries, Jews have always been the people of the book. With the wonderful development of the new National Library in Jerusalem, our people has a physical home for the book.

Sefaria has the potential to become the digital home of the book for the people of the book. The digitalisation of our books, manuscripts and journals, is not just creating a vital online resource, but is opening up our ancient heritage to a new generation on a global scale in a digital age. I commend all those involved in this initiative and wish it every blessing and success.”

— RABBI LORD JONATHAN SACKS

Sefaria invites you
